### **Attention Construction Companies/Commercial Haulers:**

Please note that effective immediately, REACT will no longer be accepting commercial loads of shingles or demolition/construction materials at our Transfer Stations, as per a motion passed by the REACT Board of Directors on June 6, 2018: ***Motion #42-18: "That businesses that shingle or do construction/demolition or renovations be required to get bins for waste disposal instead of filling bins at the Transfer Stations."*** The Transfer Stations are municipally funded by the tax payers and for residential household waste only.

All commercial large loads (anything larger than a ½ ton) are to be hauled directly to a landfill (REACT landfills are located at Humboldt or Hoodoo), or a bin/roll-off can be rented and placed directly at your worksite for your convenience.

Please contact our office at 306-682-1955 regarding the nearest REACT landfill or for further information.

We thank you for your cooperation in this matter.
